Deploying an Application to AKS

James Bannan
AZURE CONSULTANT

@jamesbannan   www.jamesbannanit.com

Module Overview

Explore AKS application
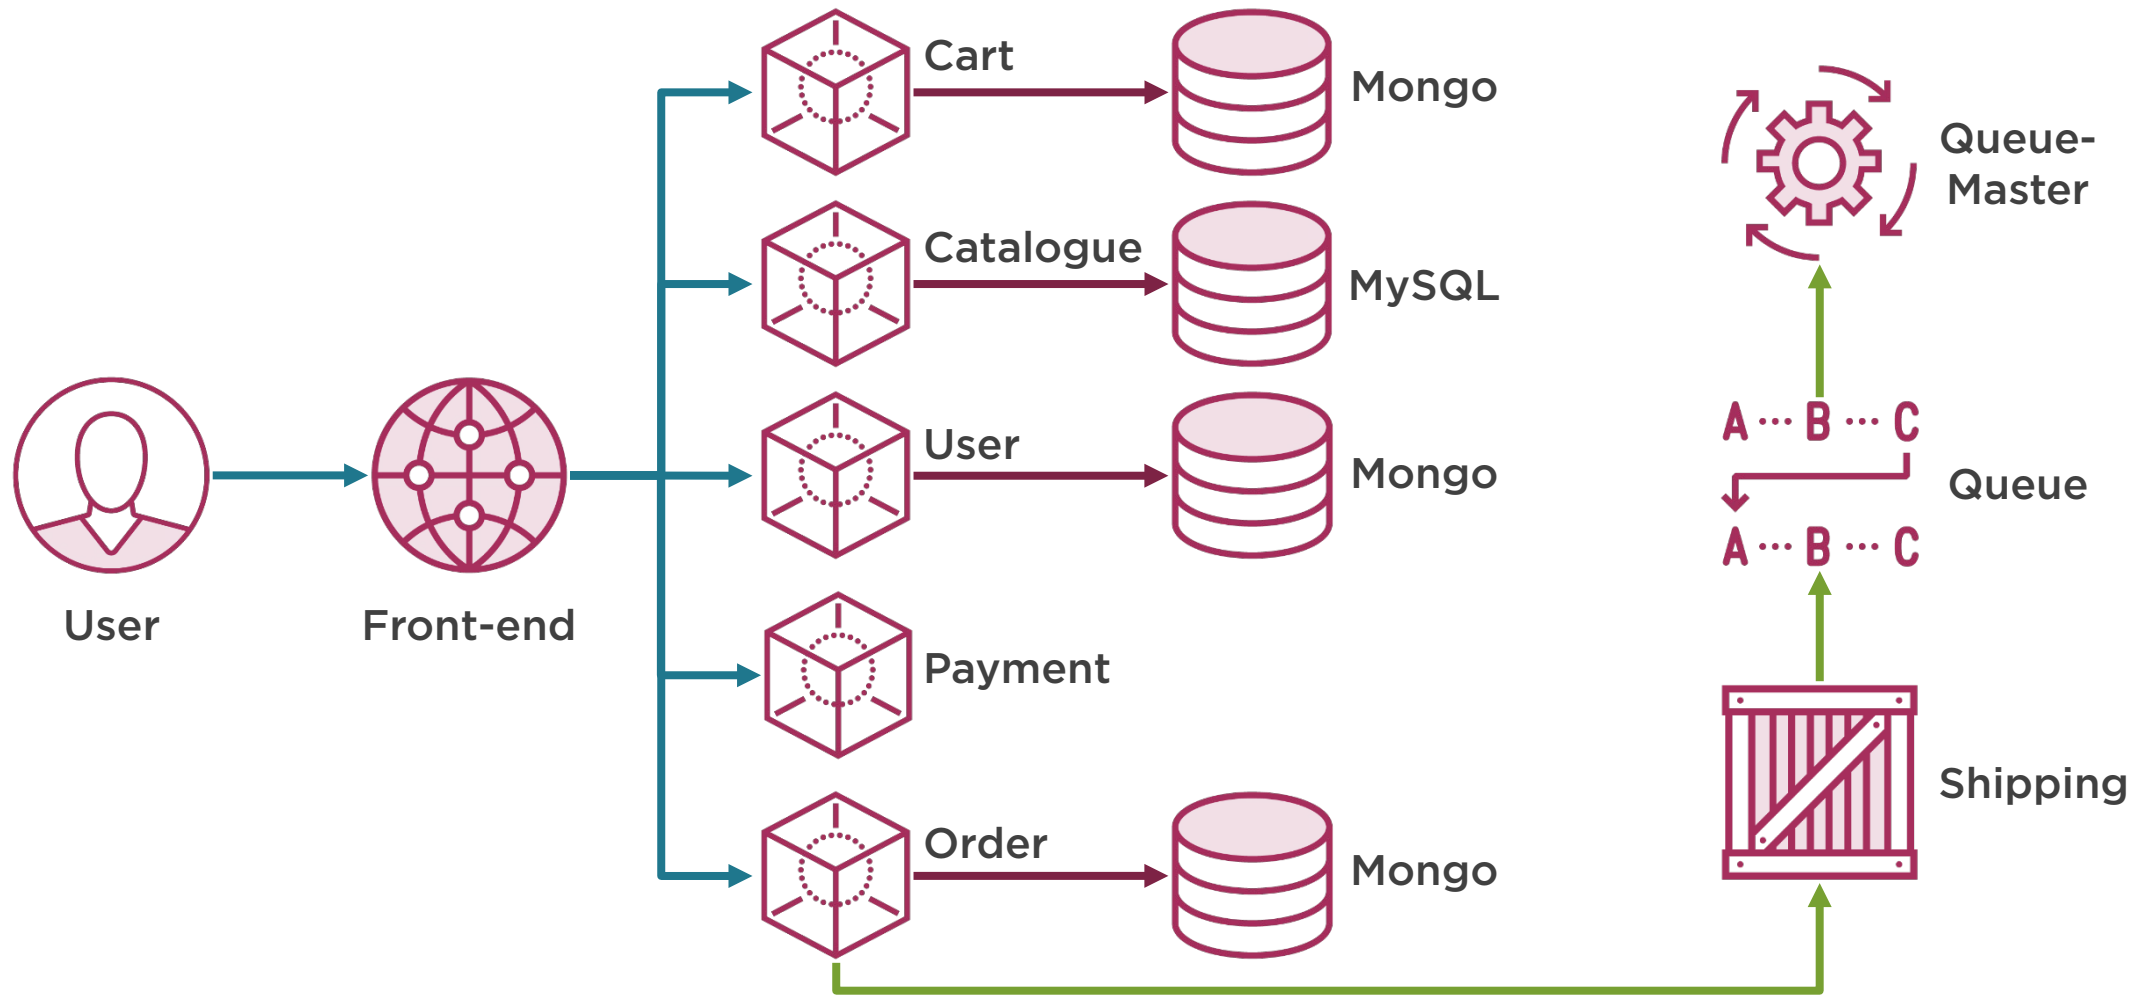

Deploy and validate application

Explore supporting Azure resources

Explore AKS Application

AKS Application Architecture

AKS Application Deployment

Bash in Azure Cloud Shell: Azure Portal and VSCode

Windows/WSL, MacOS, Linux

Course Resources: *https://github.com/jamesbannan/pluralsight*

Demo

Validate deployment environment

**Explore AKS solution**

Deploy and Validate AKS Application

Demo

Deploy microservices-demo application

Validate application functionality

Demo

Explore application configuration in AKS

Explore Azure resource changes

Module Overview

Explore AKS application

Deploy and validate application

Explore supporting Azure resources

Course Overview

Understanding AKS Infrastructure

Understanding AKS Configuration Options

Deploying AKS

Developing AKS Deployment Templates

Deploying a Solution to AKS

Manage Kubernetes Infrastructure
